PROFESSIONAL SUMMARY

Results-driven Java Full Stack Developer with over 10 years of experience delivering scalable, high-quality enterprise solutions. Proven track record in microservices architecture, performance optimization, and cross-functional team leadership. Expert in building robust backend APIs and modern front-end user interfaces with strong problem-solving skills.

TECHNICAL SKILLS

Languages: Java (8/11), Kotlin, Dart, TypeScript, JavaScript
Backend Frameworks & APIs: Spring Boot, Microservices Architecture, RESTful API, SOAP
Frontend Technologies: Angular (2+), ReactJS, AngularJS, Angular Material, HTML5, CSS3, SCSS, Bootstrap
Core Competencies: System Integration, End-to-End Application Delivery, Agile Software Development

WORK EXPERIENCE

- Sr. Software Engineer**
Epam India (Google Project)

04/2025 – Present
Hyderabad, India

 - Develop and maintain high-performance software applications for global Google client layers.
 - Utilize Dart, TypeScript, and Kotlin to build efficient system UI components and cross-platform architecture workflows.
- Sr. Consultant 1**
Hitachi Vantara

04/2022 – 04/2025
Hyderabad, India

 - **CSPS Portfolio:** Led the functional development and architectural planning of core web applications using Java, Spring Boot, and Microservices.
 - Designed and implemented highly optimized RESTful APIs to decouple dependencies, streamline enterprise integrations, and maximize data data flow velocities.
 - Collaborated across technical and business silos to translate intricate user stories into modular, production-ready source code.
- Senior Software Engineer II**
FIS

11/2020 – 04/2022
Mohali, India

 - Developed robust SOAP and REST APIs for seamless DocuSign platform implementation, eliminating legacy steps and automating document pipelines.
 - Spearheaded a migration towards highly scalable, microservices-based system configurations for mission-critical banking tools.

Sr. Software Engineer

12/2018 – 07/2020

*Mavenwave Partners India Pvt. Ltd.**Chandigarh, India*

- Optimized enterprise web systems for enhanced performance matrix execution, backend stability, and codebase maintainability.
- Engineered shareable frontend interface libraries alongside secure server-side components using Java and Spring Boot.
- Interfaced continuously with business managers to turn operational constraints into technical roadmap designs.

Software Engineer

11/2015 – 11/2018

*Silverlake Information System Pvt. Ltd.**Bangalore, India*

- Designed, executed, and maintained client dashboard platforms and responsive cross-browser internet architectures.
- Partnered within iterative development teams to resolve high-priority application bottlenecks and complete sprint deliverables.

HONORS & AWARDS

- **HV Pinnacle Award (Shining Star)** – Hitachi Vantara: Presented for elite delivery metrics and contributions to operational unit success.
- **Eagle Squad Award (07/2019 – 09/2019)** – Mavenwave: Conferred for outstanding project performance regarding the Citadel platform.
- **Eagle Squad Award (04/2019 – 06/2019)** – Mavenwave: Presented for milestone excellence during the deployment of Project RHR.
- **Pat-on-the-Back Award (12/2018 – 02/2019)** – Mavenwave: Earned for impactful backend engineering solutions written for the Fuel Application ecosystem.

EDUCATION

Bachelor of Technology (B.Tech.) in Computer Science

06/2011 – 06/2015

Jaipur Engineering College and Research Centre (Rajasthan Technical University)

Jaipur, Rajasthan
